AN iMC COMPANY

Personnel

- Highly motivated professional staff of more than 150 employees with technical, scientific, and managerial expertise

Personnel

Health Professional Team

- Nurses
- Physicians
- Dentists
- Pharmacists

Scientific Team

- Molecular Biologists
- Geneticists
- Pharmacologists
- Toxicologists
- Biochemists
- Computer Scientists
- Engineers

KEVRIC
AN iMC COMPANY

Locations

- Headquarters in Silver Spring, Maryland
- Branch offices
  - San Antonio, Texas
  - New Bedford, Massachusetts
  - Atlanta, Georgia
  - Mobile, Alabama

KEVRIC
AN iMC COMPANY

Core Competencies

- Health and Science Informatics
- Environmental Services
- Education and Outreach
- Conference Management

KEVRIC
AN iMC COMPANY

Health and Science Informatics Capabilities

- Vocabulary solutions
  - Evaluate
  - Assess
  - Plan
  - Develop
  - Implement
- Natural language processing and analysis
- Adverse event tracking
- Clinical trial management
- Electronic records

KEVRIC
AN iMC COMPANY

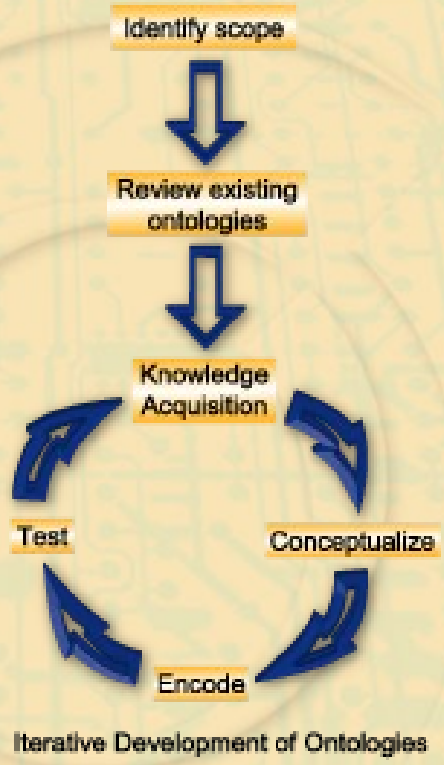
Health and Science Informatics Informatics Vocabulary Projects

- National Library of Medicine
  Unified Medical Language System
- National Cancer Institute
  Enterprise Vocabulary System
- National Cancer Institute
  Physician's Data Query
- Centers for Disease Control and Prevention
  Controlled Public Health Thesaurus

KEVRIC
AN iMC COMPANY

Health and Science Informatics Selected Projects

Developed specifications for an immunology ontological data model and vocabulary server for the National Institute of Allergy and Infectious Diseases, Bioinformatics Integration Support Contract



Iterative Development of Ontologies

KEVRIC
AN iMC COMPANY

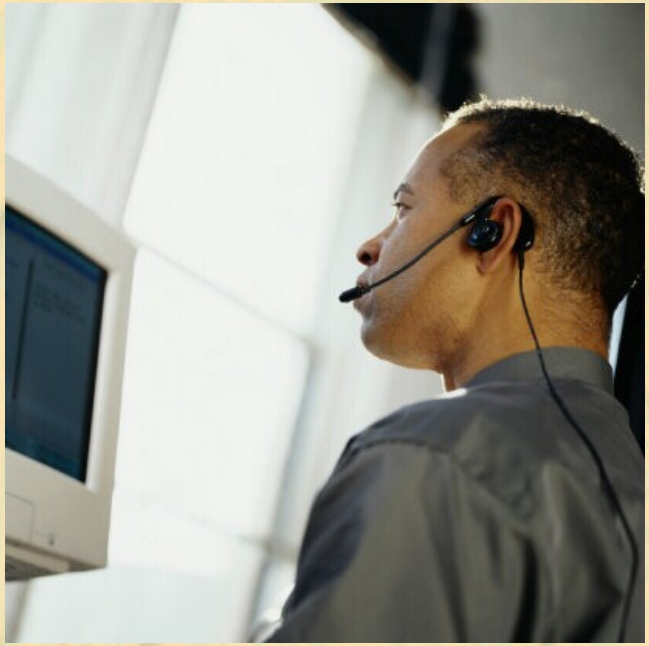
Health and Science Informatics Selected Projects

Developing a prototype web-accessible integrated data warehouse of adverse medical event data for the National Patient Safety Network under contract to the Agency for Healthcare Research and Quality

KEVRIC
AN iMC COMPANY

Health and Science Informatics Selected Projects

Integrate new and emerging technologies to spur productivity, enhance patient safety and increase the quality of patient care with the creation of a prototype for Hands Free Electronic Heath Records (HFEHR) in support of the Telemedicine and Advances Technology Research Center (TATRC) mission



KEVRIC
AN iMC COMPANY

Environmental Services Capabilities

- Environmental health/toxicological profiles
- Environmental sampling
- Environmental health and safety support

KEVRIC
AN iMC COMPANY

Environmental Services
Selected Projects

Developed interactive toxicological profiles on specific chemicals and chemical combinations for the Agency for Toxic Substances and Disease Registry; summarized mechanism of action, target organs, end points and route, and sequence and duration of exposure

KEVRIC
AN iMC COMPANY

Environmental Services
Selected Projects

Provided statistical design and conducted sampling program for the first Superfund PCB-contaminated harbor site, including air monitoring, sediment sampling, and a health and safety program

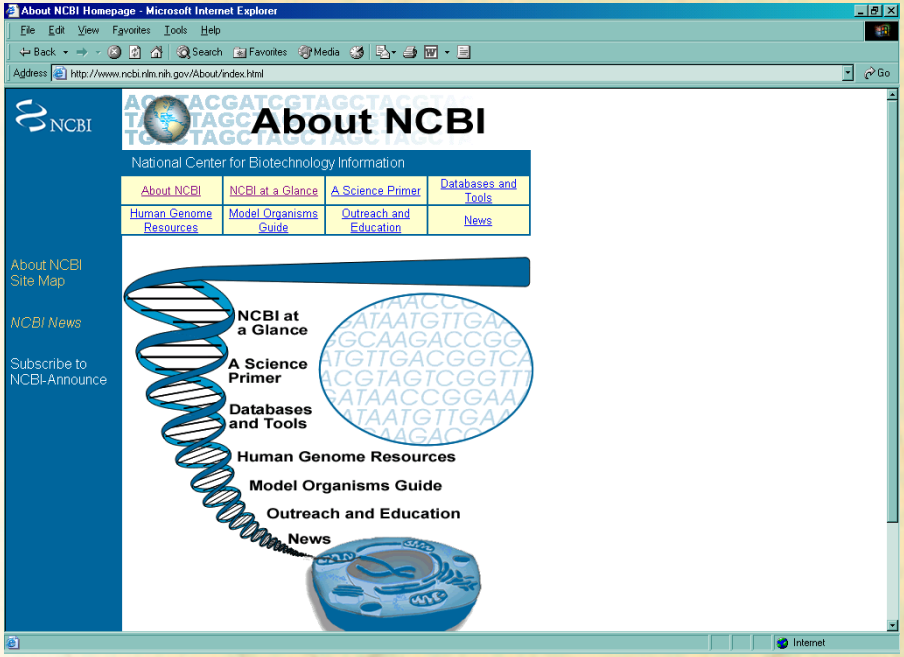
KEVRIC
AN iMC COMPANY

Education and Outreach Capabilities

- Web site design and development
- Web-based training
- Help desk support
- Communications plans
- Public health education and outreach

Education and Outreach Selected Projects

Provided user support services for molecular biology databases, access services, and software at the National Center for Biotechnology Information; respond to approximately 20,000 e-mail and over 1,000 phone queries each year



KEVRIC
AN iMC COMPANY

Education and Outreach Selected Projects

Designed the environmental web university for environmental training courses, distance learning, and best practices; developed the e-learning system architecture to support the worldwide Air Force Environmental Education and Training Program

About Web University
Purpose
WebU offers self-paced Web Courses and Tutorials on introductory and advanced environmental topics. The WebU Learning Management System allows:
• Anytime, Anywhere Access for Registered Students
• On-Line Access to Student Transcripts
• On-Line Reports for Course Owners and Faculty Members
• Trend Analysis Data for On-Going Course Improvements
WebU puts a variety of Tools and Resources in one place such as:
• CD-ROM Courses to Download to a Personal Computer
• On-Line Database of Training Sources
• Moderated Bulletin Board
• Air Force Environmental Master Task List
• Environmental Education and Training Program Policy and Guidance
Fees and Eligibility
On-line courses are free to registered users. Department of Defense employees, employees of other U.S. Government agencies, and government-sponsored contractors may register for WebU courses. Remaining areas of WebU offer unrestricted access.
Available Courses
WebU currently offers courses in Pollution Prevention (P2), Affirmative Procurement (AP), Emergency Planning and Community Right-to- Know Act (EPCRA), and the Air Force Environmental Management Information System (AF EMIS) Hazardous Waste Module. Additional courses will be added throughout 2002.
Course Standards
On-line courses and tutorials must meet the same Air Force Instructional System Design Standards as courses offered by Air Force schools. WebU Administrators' and Course Owners implement measures to ensure course integrity and quality. Periodic data reviews are conducted to evaluate student trends, identify problems, and make improvements. A WebU Design Guide is in development and will be made available when completed. WebU is not SCORM conformant but is Section 508 compliant.
